REPORTING PERIOD 2: Kal. Apr. P. Aurelio C. Flavio cos. - Kal. Feb. M. Metello D. Aurelio cos. (April 1, 2025 to 1 March 2026)	6

I. Purpose

The senate mandates provincial reporting and an evaluation system defined under the *senatus consultum de provinciis ordinandis* and the *senatus consultum de relatione provinciali requirenda*. This has generally demanded annual reporting by the governors to the senate and an evaluation mark assigned yearly.

The *senatus consultum de relationibus praesidum provinciarum*, enacted on Non. Oct. † P. Aurelio C. Flavio cos. (7 October, 2025), defined a new regular reporting period for governors. It defined the requirement for submissions to be Kal. Mar. (1 March) yearly. A clarification for the required reporting period was articulated in the *senatus consultum de clarificatione temporis referendarum relationum provincialium* on a.d. III Kal. Feb. † M. Metello D. Aurelio cos. (30 January, 2026) which specified a reporting demand for the following periods:

- i. Kal. Apr. M. Cotta C. Petronio cos. - Kal. Apr. P. Aurelio C. Flavio cos. (April 1, 2024 to April 1, 2025).
- ii. Kal. Apr. P. Aurelio C. Flavio cos. - Kal. Feb. M. Metello D. Aurelio cos. (April 1, 2025 to 1 March 2026).

Previous provincial reports are available on the Nova Roma province website:

II. Current Citizen Status & Activity

i. OVERVIEW

Provincia Australia is now a fully “active” province. In the latest two reporting periods, the province has achieved this status for the first time. Provincia Australia has also increased the number of allied and partner legions cooperating and networking with the province. Several citizens in these legions also possess the *cives optimo iure* and participate in Nova Roman led activities and society. All unit commanders of these legions are officially recognised by the province and are appointed as members of the Provincial Council.

A number of events have been held within the province, which includes face-to-face meetings of more than five citizens.

A vicus forum was established in the Australian Capital Territory under *edictum propaetorium de conditione vici Kanberrae*. Meetings of the vicus were originally arranged by the governor before the official magister elections and efforts continue now to keep this vicus viable. The vicus has struggled to maintain activity and the governor is exploring options going forwards.

III. Province Status Evaluation

i. EVALUATION SUMMARY

In accordance with *senatus consultum de provinciis ordinandis* and the *senatus consultum de relatione provinciali requirenda*, provinces are evaluated for ongoing efficacy. Previous Provincia Australia reports may have incorrectly reported and over-assigned additional marks due to a misunderstanding of the commencement of the review cycle under law. With the demand for the latest two reporting cycles, stipulated in this report, there is now a total of five reporting cycles.

As per the *senatus consultum* this report contains two reporting cycles.
