PROVINCIAL REPORT: PROVINCIA AMERICA CISMISSISSIPPIANA
by propraetrix M. Hortensia Maior Faustina

1. Number of current Nova Roman citizens in your provinces

There are currently 80 citizens in the province, most inactive.

2. Web addresses of the main internet forum of the province, and all additional provincial forums that are public.

The province has no official forum. There seems to be the most activity on the provincial channel of the official NR discord server.

I have been in the process of contacting known members, but there is no consensus about a universal channel of communication. Various citizens use some combination of email, Discord, Facebook, or Signal, but there is no overlap between all members. Afterwards, I can organize which citizens are willing to communicate about provincial activities. It is probably the best course of action to declare the America Cismississippiana channel of the NR discord server, as most of the active citizens can access it.

2.1. Monthly average number of messages in the main provincial forum

In the America Cismississippiana channel of the NR discord server, there were approximately 27 messages in the given period covered by this report. That averages **2.25** messages per month.

2. 2. Average number of Nova Roman citizens posting per month

There were 8 citizens total who posted in the America Cismississippiana channel of the NR discord server during the year period covered by this report. That averages to 0.66 citizens per month.

2.3. Total number of members (citizens and peregrini combined) in the provincial forum.

According to Discord, there were 25 citizens who had access to the America Cismississippiana channel of the NR discord server

3. Number of those real-life gatherings

None in the given period of review.

4. Reenactment groups

None.

5. Names of all candidates for the governorship

M. Hortensia Maior Fabiana Faustina (but I will recommend my provincial quaestor P. Aurelius Barbatus once he becomes eligible after completing his term of quaestorship).
